Wheat Traders Are Strongly in Favor of Bear Side.

THIS DESPITE CASH STRENGTH They Base Their Opinions on Large Quantity of Wheat Bought in

Country, Which is Not Moved as Yet. OMAHA, Jan. 12, 1910.

OMAHA, Jan. 12, 1910.

Wheat traders were strongly in rayor of the bear side despite the strength in the cash market and bused their opinions on the large quantities of wheat bought in the country which has not been moved as yet by the railroads. There has been very little change in vatues this weak and a reaction is due.

Corn was independently strong and worked some higher. Buying was general, particularly by country houses. Weather conditions are very unfavorable for the shipping of corn.

Wheat was weak early on selling because of the decided drop in Liverpool cables. Prices were strong fater on good buying by milling houses and cash handlers, who absorbed the early offerings and bid for more.

Corn was strong and sold higher, due to heavy buying as a result of the very wet, unfavorable weather. The quality of all incoming corn has been poor and, followed by this rain spell, the condition is sure to become worse. Primary wheat regalpts were 364,000 hu.

and shipments were \$11,000 bu, against receipts last year of 230,000 bu, and shipments of 230,000 bu, are receipts were 784,000 bu, and shipments were 235,000 bu, against receipts last year of 486,000 bu, and shipments of 424,000 bu. 424,000 bu.

with this morning's decline, current values on all classes of killing stock are not far from 25540c lower than the close of last week. Yearlings, weighing close to a hundred pounds or over, and common grades of sheep have suffered the most, while good lambs and ewes have suffered the least, and have at most times moved quite freely. Old wethers have been somewhat of a disappointment to owners, bringing but little more than ewe stuff.

The shipments are to be used only as a ride issue when needed for loading and the boat to be used for local freight so long as the local freight was sufficient to keep it busy. It is hoped by such a move to secure heavy freight at a lower rate than that made by the railroads and to build up a business of down river shipments as well as to bring such heavy freight up the stream. Several of the members of the meeting expressed their willingness to subscribe for stock in such companies and it is expected that the committee will be able to show progress before the next meeting on Monday evening of next week. Horsethieves Annoy Homostenders. SIOUX FALLS, S. D., Jan. 12.-(Special.) -What appears to be a regularly organized band of horse thleves is causing great annoyance and loss to some of the homesteaders of the new counties of Perkins and Harding, situated in the extreme northwestern portion of the state. A few nights ago nine head of horses were atolen from L. W. Head, living near the little town of Meadow, and at about the same time fifteen head were stolen from a homesteader living on Grand river, in the same region. The stolen horses are valued at an aggregate of about \$2,000. It is believed they have been brought to eastern South Dakota by the thieves, and that an effort will be made to sell them to furmers or others desiring good range horses.
